MOOLCHAND JANGID
Director

Director's Message

The business which we have conceptualize in 2016 although as prominent workforce since 2000 makes us feel proud about our achievement. It has been our sincere dedication and efforts that helps us to achieve milestones. The projects which we take are not only momentum but add to our philosophy of hard work, dedication that bears fruit. As the Director of this company. I Moolchand Jangid put the perspective as client first. The architects, engineers and workers are driving force who put all the technical know-how to make the business grow and flourish and reach the highest level of success. We create long term sustainable business and serve our esteem customers with creating business interiors, 33/11 KV substations and control rooms that is captivating and lead to growth.

PURAN JANGID
Interior Consultant

Interior Consultant's Message

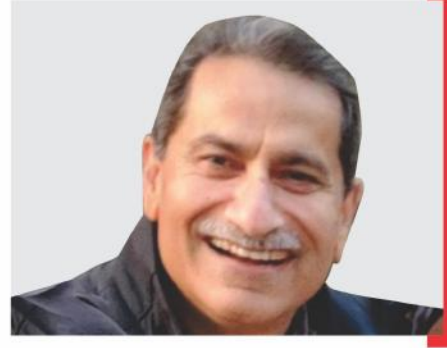

Office Interiors reflect your personality, create long term image, showcase the development. I Puran Jangid, an interior consultant has took the company as the front runner of change, innovation and abreast technology. The innovation which we put into the business is through creation of 3D models of spaces with software and tools. We put the clients perspective to meet the demands and follow the highest level of accuracy to create sustainable modules that last long.

Architect's Message

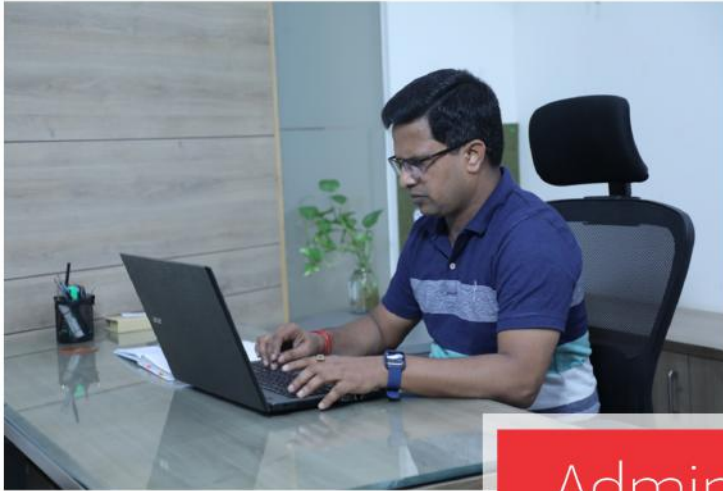

Munish Gupta
(Architect)

When an architecture is ask what his best building is, he usually answers, "the next one". I Munish Gupta truly stand as per the belief of the great architect Emilio Ambasz and his quote above speaks my thought. I put all my wits into action to create best of the architecture as per the needs of business. My constant effort has help me to achieve big business modules and the past works has been significant example of the dedication I portray. I continuously strive to work better and make business growth module in years to come for clients and us.

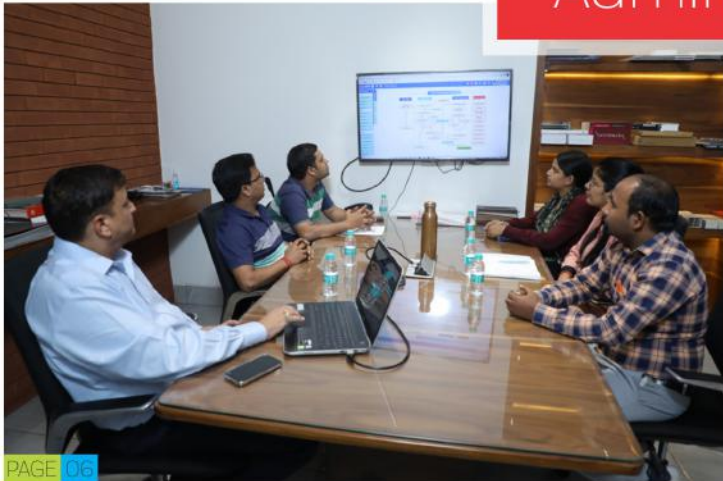

Sameer Kumar
(Architect)

Sameer Kumar has been an epitome of success, and is liberal mind person as per his philosophy. The innovation I put into the business leads to growth and development. The recent architectural works and the past one's not only creates long term sustainable business developments but also give the reflection of eminent architecture. The various projects which has been handle by me and our team have catapult our company to bigger and better business. With the need and the work all completing with dedication the business bears fruit and blossoms with flowers that are fore-bearer of change.
